T5 Electro Command™ with 8-speed IntelliShift™

Versatility with Proven Performance

Smart. Simple. Proven.

The smart choice for farmers who value automation without complexity, comfort without compromise, and performance they can trust.

The T5 Electro Command stands out with a transmission trusted by farmers worldwide, delivering automation that makes every job easier. Thanks to Autoshift with 8 speed IntelliShift™, it allows up to 8 automatic gear changes.

Designed for operators who demand robust performance and comfort, it blends versatility and intuitive controls to handle everything from fieldwork to transport and municipal tasks.

With triple suspension comfort, a refined utility modern design, and engineering focused on reducing fatigue, the T5 Electro Command is a tractor that works as hard as you do—day after day, season after season.

Smarter Automation for Seamless Performance

The T5 Electro Command is built for intelligent efficiency and effortless control, giving operators the right level of automation without added complexity in transport mode. With IntelliShift™ technology offering up to 8-speed automatic shifting, it delivers smoother driving, reduced fatigue, and greater productivity throughout the day.

The advanced Engine Speed Management system automatically adjusts fuel delivery to maintain optimal engine speed under varying loads—ensuring dependable power with less effort. Powered by the proven FPT Industrial F5 3.6-litre engine, the T5 combines fuel efficiency, reliability, and consistent performance. Smarter automation, built for everyday farming.

Operator-Centric Ergonomics for Effortless Control

Designed with the operator in mind, the T5 Electro Command puts intuitive control right at your fingertips. Its semi-powershift Electro Command™ transmission enables smooth, clutchless gear changes, enhanced with customisable shuttle and shift zones to suit any task or terrain. The Auto PTO feature adds convenience by automatically disengaging the PTO when the rear linkage rises above a present position. With Auto 4WD drive mode and Auto differential lock switches placed within easy reach, comfort and driveability are elevated – making every operation more efficient and less demanding.

Triple Comfort Advantage for Unmatched Ride Quality

Long days in the field demand more than just performance – they require comfort that lasts. The T5 Electro Command delivers just that with its Triple Comfort Advantage: Terraglide™ front axle suspension, Comfort Ride™ cab suspension, and a fore-and-aft air-suspended seat. This trio works in harmony to absorb shocks and vibrations, ensuring a smooth, stable ride across any terrain. Whether you're navigating rough soil or cruising down the road, you'll enjoy enhanced driving pleasure, reduced fatigue, and premium comfort from dawn to dusk.

Strong & Versatile for Every Task

The T5 Electro Command is built to thrive wherever work takes you—whether in the field, on the road, in the shed, or around the yard. Its adaptability makes it a reliable partner for transport, PTO operations, front loader tasks, and even municipal or groundcare duties. Equipped with an 80L/min hydraulic pump, an impressive 5,200kg rear lifting capacity, and a robust 8,000kg Gross Vehicle Weight, it tackles heavy implements and demanding jobs with confidence and ease. Versatility meets strength in a machine that's ready for anything.

Modern Utility Design with a Bold New Look

The T5 Electro Command blends power and style in a compact, high-performance package. Its impressive power-to-weight ratio ensures agile handling and efficient operation across a variety of tasks, while its streamlined dimensions make it ideal for tight spaces and versatile applications. Now featuring refreshed styling and the latest New Holland tractor decaling, this machine doesn't just work hard—it looks sharp doing it. It's a modern tractor built for today's demands, with a design that turns heads and delivers results.

Models	T5.100	T5.110	T5.120
Engine			
No. of cylinders / Aspiration / Valves	4 / T / 4		
Capacity (cm³)	3600		
Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]	74/101	81/110	86/117
Rated engine speed (rpm)	2300		
Max. torque - ISO TR14396 (Nm)	450@1300rpm	490@1300rpm	506@1300rpm
Diesel tank capacity Standard / Optional (Litres)	174		
Service interval (hours)	600		
Electro Command™ transmission			
Max. speed (kph)	40 ECO		
Number of gears (optional creeper)	16x16 (32x32)		
Minimum speed (with creeper) (kph)	2.60 (0.26)		
IntelliShift™ System	●		
Axles			
4WD front axle	●		
Terraglide™ front axle suspension	○		
Steering angle (°)	55		
Terralock™ functions (Auto Diff / Auto 4WD)	●		
Turning radius (mm)	4960		
Hydraulics			
Fixed Displacement	●		
Main pump flow Standard / MegaFlow™ option (Lpm / Bar)	80 / 190		
Remote valves			
Max. no. rear valves / diverter	3 / 1		
Max. no. mid mount valves	2		
Linkage			
Rear linkage category	2		
Maximum rear lift capacity at ball ends (kg)	5200		
Front linkage lift capacity at ball ends (through the range) (kg)	2250		
Front Loader Ready	○		
PTO			
Electro hydraulic PTO engagement	●		
Engine speed at 540 / 540E / 1000 (rpm)	1938 / 1535 / 1926		
Ground speed	○		
Cab			
Deluxe VisionView™ cab with FOPS - OECD Code 10 Level 1	●		
FieldOps™ - Connectivity included	○		

● Standard ○ Optional
